

Seeing

tomorrow,

today.

CODOXO
AI Solutions for Healthcare

Leading a movement
to reimagine
healthcare cost containment
through our innate ability
to see what the future looks like

tomorrow,

and get there

today.

\$3.8 trillion

The U.S. spends \$3.8 trillion each year on healthcare, but a significant portion — up to \$380 billion — is lost to fraud, waste and abuse.

At Codoxo, we know there's a better way.

Our mission to contain healthcare costs has become the start of a movement — driven by a belief that dramatic change is possible, and the time is now to disrupt the status quo.

PRODUCTIVITY

The most effective AI to control healthcare costs.

Only Codoxo delivers AI built from the ground up specifically to contain healthcare costs. Our advanced AI ensures payment integrity as it seeks and predicts new patterns of fraud, waste, and abuse—in addition to identifying existing problems—before they affect your bottom line. In fact, we've identified over \$500 million in savings since 2017 and delivered an average 15:1 ROI for our customers.

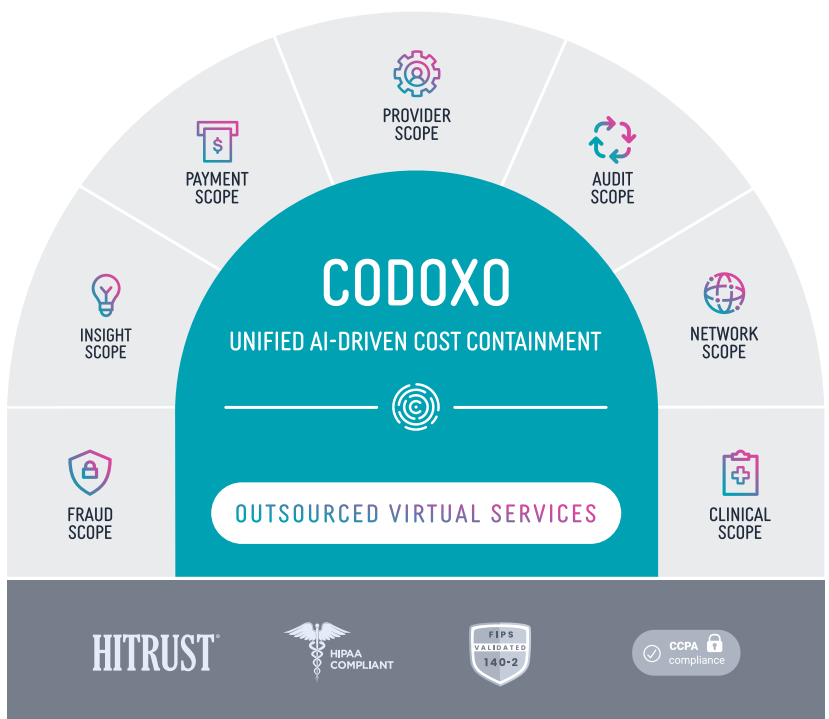

The Codoxo Healthcare Integrity Suite

Smarter, faster, better.

Our full suite of solutions is delivered on an all-in-one AI platform, enabling cost containment departments to collaborate and gain visibility all on the same claims data.

APPLYING AI ACROSS THE COST CONTAINMENT SPECTRUM:

- Payment Integrity
- Fraud, Waste, and Abuse
- Provider Coding and Billing Education
- Prior Authorization Acceleration
- Network Integrity & Contract Management
- Outsourced Virtual Services

Our forensic AI platform analyzes a wide range of claim types including professional, facility, pharmacy, behavioral, dental and workers comp, and creates connections across the data for rapid detection of problems and actionable insights.

- Identifies behavior-based patterns and detects outliers
- Detects activity that intentionally or unintentionally causes waste & abuse
- Seeks and predicts new and emerging patterns of fraud, waste & abuse
- Provides clear analysis and actionable insights
- Is up and running in weeks, not months
- Easy-to-use interface requires no special training
- Creates a unified view across cost containment departments

FRAUD
SCOPE

Automatically detects new and emerging fraud schemes, streamlines collection of evidence chains, and gives SIU teams integrated case workflow for the investigations you choose to pursue.

INSIGHT
SCOPE

Gives everyone across the health plan an easy way to research issues with self-service reporting and querying of claim, provider, facility and member behavior.

PAYMENT
SCOPE

Proactively flags problematic claims and gives analysts an easy way to follow up on claims with pre-pay intelligence, easy-to-use claim workflow, and provider outreach automation.

PROVIDER
SCOPE

Compares each provider's claims and coding practices to their peers, identifies outlier behavior, and proactively engages providers to improve claim integrity and bring down pre-claim costs.

AUDIT
SCOPE

Automates and streamlines end-to-end audit detection and workflow while ensuring compliance. Provides seamless integration of detection, selection, audit creation, tracking and reporting of audits across all pre-pay and post-pay functions.

NETWORK
SCOPE

Gives you comparative data for each healthcare group, plan, hospital, pharmacy, dental practice and provider in your network so your network team can go into every contract negotiation with the data you need to bring down long-term costs.

CLINICAL
SCOPE

Accelerates pre-authorization approvals for providers with strong integrity scores and flags requests that need a closer look based on recent provider behavior or emerging FWA schemes.

Innovation doesn't have an off switch.

We invest heavily in our people and our technology to help us push the boundaries of what's possible. Our people and culture are essential to our success; it's our responsibility to help customers glimpse what's possible in the future and build toward it. Continual innovation is a bedrock of what we do.

The Codoxo Difference

DEEP ACADEMIC ROOTS

Developed with the expertise, discipline and research rigor of our PhD founder, Musheer Ahmed.

THE MOST EFFECTIVE AI

Not all AI is created equal. Codoxo uses the most effective and proprietary AI technology to identify fraud schemes faster and with greater accuracy to stay ahead of ever-evolving threats.

SPEED TO IMPLEMENTATION, DETECTION & INSIGHTS

Threats to your bottom line evolve quickly. That's why Codoxo moves faster. Our solutions can be implemented in weeks instead of months. Moreover, Codoxo's intuitive user-friendly interface provides actionable information that enables productive sleuthing and identification of suspect trends quickly.

CONSTANT INNOVATION

We invest significant dollars in research and development and have a large internal team of research scientists who constantly push the boundaries of what is achievable using the latest AI technology.

PROVEN PERFORMANCE

Average 15:1 ROI/\$500M in identified savings.

A culture of collaboration

Across the company, we are driven to delight our customers and ensure their success. It is our goal to create collaborative long-term partnerships where we can constantly improve, solve and return meaningful savings.

The Codoxo Mission

Our mission is to help deliver cost containment to our clients by eliminating the significant impact of fraud, waste and abuse and by ensuring payment integrity and seek to apply those savings to make our healthcare system more affordable and effective.

We deliver upon our mission by establishing collaborative partnerships with our clients, prioritizing continuous research and innovation, and leveraging our leading AI technology with expert analysis grounded in academic rigor.

*“Codoxo’s Forensic AI Platform is a game changer.
AI is helping us identify, prevent, and stop
potentially fraudulent activities earlier than ever.”*

– Kurt Spear, VP Financial Investigations and Provider Review

The time to act is now.

You need a partner who is acting today to solve tomorrow’s most pressing issues. We invite you to join us in making an impact on healthcare affordability and effectiveness.
That’s seeing tomorrow, today.
